We do need time to prepare the subpoena and get it mailed to you, and then you will need to serve the individual who the subpoena is for. If your hearing date is less than 10 days away there may not be enough time to allow all of that. I can not say if it would automatically be rejected, as that is not my decision. If you can get the form back to me quickly, I can get it to the Chief Hearing Officer and see if we can get it turned around quickly for you.

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. **When was the decision made to place OCFS investigative appeals on hold?**
2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

Cc: DHHS Admin Hearings <DHHSAdminHearings@maine.gov>

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months**.

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process**, **fair notice**, and **transparency**. As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in

the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

DHHS Admin Hearings <DHHSAdminHearings@maine.gov>

Wed, Jun 25, 2025 at 11:05 AM

To: "rtgmich@gmail.com" <rtgmich@gmail.com>, "Enis, Deanna" <Deanna.Enis@maine.gov>

Mr. Michaels,

Any questions or issues you wish to raise with regard to your appeal should be directed to the hearing officer during the hearing. At the hearing, the hearing officer will allow you to create a record to properly raise any issues you would like considered by the Commissioner. The hearing officer will then respond in writing as part of his recommended decision. In addition, the hearing officer is also in charge of recording all of your arguments in the event that you appeal further and ask a court to review the Department's action. For all of these reasons, it is important that your issues and concerns are raised at the time of your scheduled hearing.

Good morning,

Although I do not want to get into back and forth communication, I would like to point out that the scheduling letter was sent out in April and you have had since then to prepare for the July 1st hearing.

If you do not feel you had adequate time to prepare and would like to request a continuance so that you can prepare, the Department would not be opposed to a continuance. If you would like a continuance, please put the request in writing (email would do) and submit it to the hearings office and myself.

Reply-To: rtgmich@gmail.com

To: "Enis, Deanna" <Deanna.Enis@maine.gov>

Cc: DHHS Admin Hearings <DHHSAdminHearings@maine.gov>

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my**

appeal been scheduled when it should have been, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,
Ryan Michaels

To: "Enis, Deanna" <Deanna.Enis@maine.gov>

Cc: DHHS Admin Hearings <DHHSAdminHearings@maine.gov>, Christine Alberi <ombudsman@cwombudsman.org>

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Subject: FW: Witness list

Good morning,

I noticed that the Department of Administrative Hearings was not included in this email chain so I am forwarding this to the general mailbox as appropriate.

The subject of the email indicated "witness list". There was no witness list attached.

In respect to your request:

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

The Department is amenable to a continuance. The Department is not amenable to the record remaining open so that responses into evidence is submitted as there would be no opportunity to cross pertaining to the information submitted after the hearing.

Thank you,

Deanna Enis, LSW

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,
Ryan Michaels

Subject: Re: Witness list

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months.**

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process, fair notice, and transparency.** As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. **When was the decision made to place OCFS investigative appeals on hold?**
2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

On the bottom of the format says that I have to do this ten days in advance of the hearing date. Does this mean it will be rejected if I put it in?

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**

- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,
Ryan Michaels

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months.**

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process, fair notice, and transparency.** As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. **When was the decision made to place OCFS investigative appeals on hold?**
2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,

Ryan Michaels

On the bottom of the format says that I have to do this ten days in advance of the hearing date. Does this mean it will be rejected if I put it in?

Subject: Acknowledgment of Continuance and Formal Objection to Department Delays

Dear Ms. Enis, Ms. Devine, and all copied,

I acknowledge receipt of the Department’s recent responses and confirm that I accept the continuance that has been granted, and I have received the subpoena forms. I will proceed in good faith to prepare for the rescheduled hearing.

That said, I put on the record my formal objection to the fact that I must rely on a continuance in the first place. All five licensees in my Board of Licensing matters were granted extensions until October 20, 2025—well beyond the initial 30-day period—and that extension has forced this delay. This occurs against a documented history of delayed and obstructive responses by the Department in this matter.

Specifically:

- My FOAA request (FOAA No. 1400), submitted August 1, 2025, was not a generic request for records. Its very purpose was to ask for proof and reasoning behind the Department’s decision to place Administrative Appeals on hold. That unilateral action directly, negatively, and irreparably damaged me and my family, and very likely many other families as well. It should never have required a FOAA request to obtain this basic explanation. As shown in this attached correspondence, I even asked about it directly in this very email chain, yet was met with the same evasion, obstruction, and stonewalling that has become a pattern. The Department’s failure to honor its four-week production estimate, despite Ombudsman intervention, compounds this harm.
- I previously raised concerns here about the Department prioritizing MaineCare over Administrative Appeals and effectively shutting down appeals without informing parents or the public. That decision robbed me of the opportunity to address these issues months ago, long before today’s continuance was necessary.
- I have been quoted extreme FOAA fees on other requests (estimates in the tens of thousands of dollars), which further functions to price me out of access to public records.

For clarity and the avoidance of further prejudice, please confirm in writing the new hearing date and that it will be scheduled after October 20, 2025 so that the Board of Licensing responses may be included in my preparation. Please provide that written confirmation by close of business October 1, 2025.

I want the record to show that, if it had been possible, I would have represented myself and had this appeal heard many months ago. The delays, failures to communicate, and obstruction I have documented here are the reasons I have not been able to do so.

Thank you,
Ryan Michaels

I acknowledge receipt of the Department's recent responses and confirm that I accept the continuance that has been granted, and I have received the subpoena forms. I will proceed in good faith to prepare for the rescheduled hearing.

That said, I put on the record my formal objection to the fact that I must rely on a continuance in the first place. All five licensees in my Board of Licensing matters were granted extensions until October 20, 2025—well beyond the initial 30-day period—and that extension has forced this delay. This occurs against a documented history of delayed and obstructive responses by the Department in this matter.

Specifically:

- My FOAA request (FOAA No. 1400), submitted August 1, 2025, was not a generic request for records. Its very purpose was to ask for proof and reasoning behind the Department's decision to place Administrative Appeals on hold. That unilateral action directly, negatively, and irreparably damaged me and my family, and very likely many other families as well. It should never have required a FOAA request to obtain this basic explanation. As shown in

this attached correspondence, I even asked about it directly in this very email chain, yet was met with the same evasion, obstruction, and stonewalling that has become a pattern. The Department's failure to honor its four-week production estimate, despite Ombudsman intervention, compounds this harm.

- I previously raised concerns here about the Department prioritizing MaineCare over Administrative Appeals and effectively shutting down appeals without informing parents or the public. That decision robbed me of the opportunity to address these issues months ago, long before today's continuance was necessary.
- I have been quoted extreme FOIA fees on other requests (estimates in the tens of thousands of dollars), which further functions to price me out of access to public records.

For clarity and the avoidance of further prejudice, please confirm in writing the new hearing date and that it will be scheduled after October 20, 2025 so that the Board of Licensing responses may be included in my preparation. Please provide that written confirmation by close of business October 1, 2025.

I want the record to show that, if it had been possible, I would have represented myself and had this appeal heard many months ago. The delays, failures to communicate, and obstruction I have documented here are the reasons I have not been able to do so.

Thank you,
Ryan Michaels

Subject: FW: Witness list

Good morning,

I noticed that the Department of Administrative Hearings was not included in this email chain so I am forwarding this to the general mailbox as appropriate.

The subject of the email indicated "witness list". There was no witness list attached.

In respect to your request:

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

The Department is amenable to a continuance. The Department is not amenable to the record remaining open so that responses into evidence is submitted as there would be no opportunity to cross pertaining to the information submitted after the hearing.

Thank you,

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,
Ryan Michaels

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months.**

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process, fair notice, and transparency.** As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. When was the decision made to place OCFS investigative appeals on hold?

2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

Subject: Acknowledgment of Continuance and Formal Objection to Department Delays

Dear Ms. Enis, Ms. Devine, and all copied,

I acknowledge receipt of the Department's recent responses and confirm that I accept the continuance that has been granted, and I have received the subpoena forms. I will proceed in good faith to prepare for the rescheduled hearing.

That said, I put on the record my formal objection to the fact that I must rely on a continuance in the first place. All five licensees in my Board of Licensing matters were granted extensions until October 20, 2025—well beyond the initial 30-day period—and that extension has forced this delay. This occurs against a documented history of delayed and obstructive responses by the Department in this matter.

Specifically:

- My FOAA request (FOAA No. 1400), submitted August 1, 2025, was not a generic request for records. Its very purpose was to ask for proof and reasoning behind the Department's decision to place Administrative Appeals on hold. That unilateral action directly, negatively, and irreparably damaged me and my family, and very likely many other families as well. It should never have required a FOAA request to obtain this basic explanation. As shown in this attached correspondence, I even asked about it directly in this very email chain, yet was met with the same evasion, obstruction, and stonewalling that has become a pattern. The Department's failure to honor its four-week production estimate, despite Ombudsman intervention, compounds this harm.
- I previously raised concerns here about the Department prioritizing MaineCare over Administrative Appeals and effectively shutting down appeals without informing parents or the public. That decision robbed me of the opportunity to address these issues months ago, long before today's continuance was necessary.
- I have been quoted extreme FOAA fees on other requests (estimates in the tens of thousands of dollars), which further functions to price me out of access to public records.

For clarity and the avoidance of further prejudice, please confirm in writing the new hearing date and that it will be scheduled after October 20, 2025 so that the Board of Licensing responses may be included in my preparation. Please provide that written confirmation by close of business October 1, 2025.

I want the record to show that, if it had been possible, I would have represented myself and had this appeal heard many months ago. The delays, failures to communicate, and obstruction I have documented here are the reasons I have not been able to do so.

Thank you,
Ryan Michaels

Subject: FW: Witness list

Good morning,

I noticed that the Department of Administrative Hearings was not included in this email chain so I am forwarding this to the general mailbox as appropriate.

The subject of the email indicated "witness list". There was no witness list attached.

In respect to your request:

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

The Department is amenable to a continuance. The Department is not amenable to the record remaining open so that responses into evidence is submitted as there would be no opportunity to cross pertaining to the information submitted after the hearing.

Thank you,

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing

the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,
Ryan Michaels

Subject: Re: Witness list

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months.**

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process, fair notice, and transparency.** As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. **When was the decision made to place OCFS investigative appeals on hold?**
2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

Subject: Acknowledgment of Continuance and Formal Objection to Department Delays

Dear Ms. Enis, Ms. Devine, and all copied,

I acknowledge receipt of the Department's recent responses and confirm that I accept the continuance that has been granted, and I have received the subpoena forms. I will proceed in good faith to prepare for the rescheduled hearing.

That said, I put on the record my formal objection to the fact that I must rely on a continuance in the first place. All five licensees in my Board of Licensing matters were granted extensions until October 20, 2025—well beyond the initial 30-day period—and that extension has forced this delay. This occurs against a documented history of delayed and obstructive responses by the Department in this matter.

Specifically:

- My FOAA request (FOAA No. 1400), submitted August 1, 2025, was not a generic request for records. Its very purpose was to ask for proof and reasoning behind the Department's decision to place Administrative Appeals on hold. That unilateral action directly, negatively, and irreparably damaged me and my family, and very likely many other families as well. It should never have required a FOAA request to obtain this basic explanation. As shown in this attached correspondence, I even asked about it directly in this very email chain, yet was met with the same evasion, obstruction, and stonewalling that has become a pattern. The Department's failure to honor its four-week production estimate, despite Ombudsman intervention, compounds this harm.
- I previously raised concerns here about the Department prioritizing MaineCare over Administrative Appeals and effectively shutting down appeals without informing parents or the public. That decision robbed me of the opportunity to address these issues months ago, long before today's continuance was necessary.
- I have been quoted extreme FOAA fees on other requests (estimates in the tens of thousands of dollars), which further functions to price me out of access to public records.

For clarity and the avoidance of further prejudice, please confirm in writing the new hearing date and that it will be scheduled after October 20, 2025 so that the Board of Licensing responses may be included in my preparation. Please provide that written confirmation by close of business October 1, 2025.

I want the record to show that, if it had been possible, I would have represented myself and had this appeal heard many months ago. The delays, failures to communicate, and obstruction I have documented here are the reasons I have not been able to do so.

Thank you,
Ryan Michaels

Subject: FW: Witness list

Good morning,

I noticed that the Department of Administrative Hearings was not included in this email chain so I am forwarding this to the general mailbox as appropriate.

The subject of the email indicated "witness list". There was no witness list attached.

In respect to your request:

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

The Department is amenable to a continuance. The Department is not amenable to the record remaining open so that responses into evidence is submitted as there would be no opportunity to cross pertaining to the information submitted after the hearing.

Thank you,

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,
Ryan Michaels

Subject: Re: Witness list

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months.**

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process, fair notice, and transparency.** As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. **When was the decision made to place OCFS investigative appeals on hold?**
2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

Subject: Confirmation of Continuance & Renewed Request for FOAA Response

Dear Ms. Enis, Ms. Devine, and all copied,

I appreciate the confirmation that my continuance will be scheduled for a date **after October 20, 2025**. That addresses the immediate scheduling concern I raised and ensures I will have access to the Board of Licensing responses in advance of the hearing.

At the same time, I must put on the record that the **substantive concerns raised in my prior emails continue to be disregarded, deferred, or left unanswered**. Today alone, I received multiple replies from both Ms. Enis and DHHS Administrative Hearings — showing that when the Department chooses, it can respond promptly and in succession. Yet in all of these replies, the central context of my communications has not been addressed.

Accordingly, I now restate the singular question that has been at the heart of my FOAA Request No. 1400:

Please provide the written records, communications, or directives that explain why Administrative Appeals were placed on hold.

This is not a question to be overlooked. It should never have required a FOAA request in the first place, and the absence of an answer has already caused direct and irreparable harm to me, my family, and likely many other families. I respectfully request that this information be provided by **October 8, 2025** so that I may review it in advance of the rescheduled hearing.

Lastly, to clarify the point raised about the attachment labeled "Witness List": that file was simply a PDF printout of this same email chain for reference — not a separate list of names.

Thank you,
Ryan Michaels

Subject: Acknowledgment of Continuance and Formal Objection to Department Delays

Dear Ms. Enis, Ms. Devine, and all copied,

I acknowledge receipt of the Department's recent responses and confirm that I accept the continuance that has been granted, and I have received the subpoena forms. I will proceed in good faith to prepare for the rescheduled hearing.

That said, I put on the record my formal objection to the fact that I must rely on a continuance in the first place. All five licensees in my Board of Licensing matters were granted extensions until October 20, 2025—well beyond the initial 30-day period—and that extension has forced this delay. This occurs against a documented history of delayed and obstructive responses by the Department in this matter.

Specifically:

- My FOAA request (FOAA No. 1400), submitted August 1, 2025, was not a generic request for records. Its very purpose was to ask for proof and reasoning behind the Department's decision to place Administrative Appeals on hold. That unilateral action directly, negatively, and irreparably damaged me and my family, and very likely many other families as well. It should never have required a FOAA request to obtain this basic explanation. As shown in this attached correspondence, I even asked about it directly in this very email chain, yet was met with the same evasion, obstruction, and stonewalling that has become a pattern. The Department's failure to honor its four-week production estimate, despite Ombudsman intervention, compounds this harm.
- I previously raised concerns here about the Department prioritizing MaineCare over Administrative Appeals and effectively shutting down appeals without informing parents or the public. That decision robbed me of the opportunity to address these issues months ago, long before today's continuance was necessary.
- I have been quoted extreme FOAA fees on other requests (estimates in the tens of thousands of dollars), which further functions to price me out of access to public records.

For clarity and the avoidance of further prejudice, please confirm in writing the new hearing date and that it will be scheduled after October 20, 2025 so that the Board of Licensing responses may be included in my preparation. Please provide that written confirmation by close of business October 1, 2025.

I want the record to show that, if it had been possible, I would have represented myself and had this appeal heard many months ago. The delays, failures to communicate, and obstruction I have documented here are the reasons I have not been able to do so.

Thank you,
Ryan Michaels

Subject: FW: Witness list

Good morning,

I noticed that the Department of Administrative Hearings was not included in this email chain so I am forwarding this to the general mailbox as appropriate.

The subject of the email indicated "witness list". There was no witness list attached.

In respect to your request:

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation;
or,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

The Department is amenable to a continuance. The Department is not amenable to the record remaining open so that responses into evidence is submitted as there would be no opportunity to cross pertaining to the information submitted after the hearing.

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation;
or,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,

Ryan Michaels

Good morning,

Although I do not want to get into back and forth communication, I would like to point out that the scheduling letter was sent out in April and you have had since then to prepare for the July 1st hearing.

If you do not feel you had adequate time to prepare and would like to request a continuance so that you can prepare, the Department would not be opposed to a continuance. If you would like a continuance, please put the request in writing (email would do) and submit it to the hearings office and myself.

Thank you,

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months**.

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process, fair notice, and transparency**. As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. **When was the decision made to place OCFS investigative appeals on hold?**
2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

We do need time to prepare the subpoena and get it mailed to you, and then you will need to serve the individual who the subpoena is for. If your hearing date is less than 10 days away there may not be enough time to allow all of that. I can not say if it would automatically be rejected, as that is not my decision. If you can get the form back to me quickly, I can get it to the Chief Hearing Officer and see if we can get it turned around quickly for you.

On the bottom of the format says that I have to do this ten days in advance of the hearing date. Does this mean it will be rejected if I put it in?

Subject: Confirmation of Continuance & Renewed Request for FOAA Response

Dear Ms. Enis, Ms. Devine, and all copied,

I appreciate the confirmation that my continuance will be scheduled for a date **after October 20, 2025**. That addresses the immediate scheduling concern I raised and ensures I will have access to the Board of Licensing responses in advance of the hearing.

At the same time, I must put on the record that the **substantive concerns raised in my prior emails continue to be disregarded, deferred, or left unanswered**. Today alone, I received multiple replies from both Ms. Enis and DHHS Administrative Hearings — showing that when the Department chooses, it can respond promptly and in succession. Yet in all of these replies, the central context of my communications has not been addressed.

Accordingly, I now restate the singular question that has been at the heart of my FOAA Request No. 1400:

Please provide the written records, communications, or directives that explain why Administrative Appeals were placed on hold.

This is not a question to be overlooked. It should never have required a FOAA request in the first place, and the absence of an answer has already caused direct and irreparable harm to me, my family, and likely many other families. I respectfully request that this information be provided by **October 8, 2025** so that I may review it in advance of the rescheduled hearing.

Lastly, to clarify the point raised about the attachment labeled "Witness List": that file was simply a PDF printout of this same email chain for reference — not a separate list of names.

Thank you,
Ryan Michaels

Subject: Acknowledgment of Continuance and Formal Objection to Department Delays

Dear Ms. Enis, Ms. Devine, and all copied,

I acknowledge receipt of the Department's recent responses and confirm that I accept the continuance that has been granted, and I have received the subpoena forms. I will proceed in good faith to prepare for the rescheduled hearing.

That said, I put on the record my formal objection to the fact that I must rely on a continuance in the first place. All five licensees in my Board of Licensing matters were granted extensions until October 20, 2025—well beyond the initial 30-day period—and that extension has forced this delay. This occurs against a documented history of delayed and obstructive responses by the Department in this matter.

Specifically:

- My FOAA request (FOAA No. 1400), submitted August 1, 2025, was not a generic request for records. Its very purpose was to ask for proof and reasoning behind the Department's decision to place Administrative Appeals on hold. That unilateral action directly, negatively, and irreparably damaged me and my family, and very likely many other families as well. It should never have required a FOAA request to obtain this basic explanation. As shown in this attached correspondence, I even asked about it directly in this very email chain, yet was met with the same evasion, obstruction, and stonewalling that has become a pattern. The Department's failure to honor its four-week production estimate, despite Ombudsman intervention, compounds this harm.
- I previously raised concerns here about the Department prioritizing MaineCare over Administrative Appeals and effectively shutting down appeals without informing parents or the public. That decision robbed me of the opportunity to address these issues months ago, long before today's continuance was necessary.
- I have been quoted extreme FOAA fees on other requests (estimates in the tens of thousands of dollars), which further functions to price me out of access to public records.

For clarity and the avoidance of further prejudice, please confirm in writing the new hearing date and that it will be scheduled after October 20, 2025 so that the Board of Licensing responses may be included in my preparation. Please provide that written confirmation by close of business October 1, 2025.

I want the record to show that, if it had been possible, I would have represented myself and had this appeal heard many months ago. The delays, failures to communicate, and obstruction I have documented here are the reasons I have not been able to do so.

Thank you,
Ryan Michaels

Subject: FW: Witness list

Good morning,

I noticed that the Department of Administrative Hearings was not included in this email chain so I am forwarding this to the general mailbox as appropriate.

The subject of the email indicated "witness list". There was no witness list attached.

In respect to your request:

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

The Department is amenable to a continuance. The Department is not amenable to the record remaining open so that responses into evidence is submitted as there would be no opportunity to cross pertaining to the information submitted after the hearing.

Thank you,

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary

witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months.**

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process, fair notice, and transparency.** As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. When was the decision made to place OCFS investigative appeals on hold?

2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

Subject: FOAA #1400 – Request for Direct Answer

Dear Ms. Enis,

I note your response directing me to the FOAA coordinator. While I understand the technical distinction, it does not change the fact that your office administers Administrative Appeals. It is difficult to accept that the Appeals Unit could not provide something as basic as the directive or record that authorized suspending an entire appeal process regarding alleged child abuse — a decision that denied parents due process and the ability to advocate for their children’s safety.

For reference, I have already included **Brenda Kielty** as well as the two DHS officials she herself contacted to participate, as required by law. Their involvement has also gone unanswered, and I will attach that request again here for clarity.

Whether or not you choose to do what is right by providing this very reasonable information — which I have now requested more times than should ever have been necessary — does not change the fact that the truth is already plain. It is clear as day that the Department has not been acting in good faith, but has instead engaged in **stonewalling, manipulation, coercion, and obstruction**, just to name a few.

Therefore, I once more restate my request, on the record:

Please provide the records or directives explaining why Administrative Appeals were placed on hold.

This is the subject of FOAA #1400. Transparency, accountability, and the protection of children demand a direct answer.

Thank you,
Ryan Michaels

Wonderful thank you.

Can you also send me the call in info, time it starts, etc.

Also, am I able to subpoena anyone? If so how do I go about this?

Subject: FOAA #1400 – Request for Direct Answer

Dear Ms. Enis,

I note your response directing me to the FOAA coordinator. While I understand the technical distinction, it does not change the fact that your office administers Administrative Appeals. It is difficult to accept that the Appeals Unit could not provide something as basic as the directive or record that authorized suspending an entire appeal process regarding alleged child abuse — a decision that denied parents due process and the ability to advocate for their children's safety.

For reference, I have already included **Brenda Kielty** as well as the two DHS officials she herself contacted to participate, as required by law. Their involvement has also gone unanswered, and I will attach that request again here for clarity.

Whether or not you choose to do what is right by providing this very reasonable information — which I have now requested more times than should ever have been necessary — does not change the fact that the truth is already plain. It is clear as day that the Department has not been acting in good faith, but has instead engaged in **stonewalling, manipulation, coercion, and obstruction**, just to name a few.

Therefore, I once more restate my request, on the record:

Please provide the records or directives explaining why Administrative Appeals were placed on hold.

This is the subject of FOAA #1400. Transparency, accountability, and the protection of children demand a direct answer.

Thank you,
Ryan Michaels

Subject: Confirmation of Continuance & Renewed Request for FOAA Response

Dear Ms. Enis, Ms. Devine, and all copied,

I appreciate the confirmation that my continuance will be scheduled for a date **after October 20, 2025**. That addresses the immediate scheduling concern I raised and ensures I will have access to the Board of Licensing responses in advance of the hearing.

At the same time, I must put on the record that the **substantive concerns raised in my prior emails continue to be disregarded, deferred, or left unanswered**. Today alone, I received multiple replies from both Ms. Enis and DHHS Administrative Hearings — showing that when the Department chooses, it can respond promptly and in succession. Yet in all of these replies, the central context of my communications has not been addressed.

Accordingly, I now restate the singular question that has been at the heart of my FOAA Request No. 1400:

Please provide the written records, communications, or directives that explain why Administrative Appeals were placed on hold.

This is not a question to be overlooked. It should never have required a FOAA request in the first place, and the absence of an answer has already caused direct and irreparable harm to me, my family, and likely many other families. I respectfully request that this information be provided by **October 8, 2025** so that I may review it in advance of the rescheduled hearing.

Lastly, to clarify the point raised about the attachment labeled "Witness List": that file was simply a PDF printout of this same email chain for reference — not a separate list of names.

Thank you,
Ryan Michaels

Subject: Acknowledgment of Continuance and Formal Objection to Department Delays

Dear Ms. Enis, Ms. Devine, and all copied,

I acknowledge receipt of the Department's recent responses and confirm that I accept the continuance that has been granted, and I have received the subpoena forms. I will proceed in good faith to prepare for the rescheduled hearing.

That said, I put on the record my formal objection to the fact that I must rely on a continuance in the first place. All five licensees in my Board of Licensing matters were granted extensions until October 20, 2025—well beyond the initial 30-day period—and that extension has forced this delay. This occurs against a documented history of delayed and obstructive responses by the Department in this matter.

Specifically:

- My FOAA request (FOAA No. 1400), submitted August 1, 2025, was not a generic request for records. Its very purpose was to ask for proof and reasoning behind the Department's decision to place Administrative Appeals on hold. That unilateral action directly, negatively, and irreparably damaged me and my family, and very likely many other families as well. It should never have required a FOAA request to obtain this basic explanation. As shown in this attached correspondence, I even asked about it directly in this very email chain, yet was met with the same evasion, obstruction, and stonewalling that has become a pattern. The Department's failure to honor its four-week production estimate, despite Ombudsman intervention, compounds this harm.
- I previously raised concerns here about the Department prioritizing MaineCare over Administrative Appeals and effectively shutting down appeals without informing parents or the public. That decision robbed me of the opportunity to address these issues months ago, long before today's continuance was necessary.

- I have been quoted extreme FOAA fees on other requests (estimates in the tens of thousands of dollars), which further functions to price me out of access to public records.

For clarity and the avoidance of further prejudice, please confirm in writing the new hearing date and that it will be scheduled after October 20, 2025 so that the Board of Licensing responses may be included in my preparation. Please provide that written confirmation by close of business October 1, 2025.

I want the record to show that, if it had been possible, I would have represented myself and had this appeal heard many months ago. The delays, failures to communicate, and obstruction I have documented here are the reasons I have not been able to do so.

Thank you,
Ryan Michaels

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect

us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,
Ryan Michaels

Good morning,

Although I do not want to get into back and forth communication, I would like to point out that the scheduling letter was sent out in April and you have had since then to prepare for the July 1st hearing.

If you do not feel you had adequate time to prepare and would like to request a continuance so that you can prepare, the Department would not be opposed to a continuance. If you would like a continuance, please put the request in writing (email would do) and submit it to the hearings office and myself.

Thank you,

Deanna Enis, LSW

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months.**

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process, fair notice, and transparency.** As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. **When was the decision made to place OCFS investigative appeals on hold?**
2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

On the bottom of the format says that I have to do this ten days in advance of the hearing date. Does this mean it will be rejected if I put it in?

Subject: FOAA Request 1400 – Continued Obstruction, Personal Impact, and Direct Appeal for Action

Dear Ms. Kielty,

As reflected in the ongoing email chain, my repeated, civil, and reasonable requests for the information tied to **FOAA Request No. 1400** have been met with evasion, deflection, and delay.

I submitted FOAA No. 1400 on **August 1, 2025** with a **four-week** production estimate. We are well past that timeframe with no records or explanation produced. On **September 18**, you asked **Ms. Lindsay Hammes** and **Ms. Khristin Levey** for the status and any revised timeframe. Neither has provided a response. Ms. Hammes' automatic reply now indicates she is out of office until at least **October 6**, and directs me to Ms. Levey—one of the very individuals already included in your inquiry.

For context, I've been asking since **June** in this same thread for the very information FOAA 1400 seeks—*when* the decision to shut down Administrative Appeals was made, *why* MaineCare appeals were prioritized, *why* parents were not notified, and whether an official memo/directive exists. Those requests (made on **June 25**, **June 30**, **September 23**, and in between) have not been answered. **FOAA 1400 is simply my formal attempt to obtain answers to those same questions.**

The personal impact of this obstruction cannot be overstated. My children have not seen or heard from me, their father, in over **18 months** because I was coerced—under pressure from this Department and in the shadow of a jeopardy petition—into signing an amended divorce decree written entirely by my abuser. That decree is what has enabled her to alienate my children from me to this very day. Had Administrative Appeals not been shut down without notice, I could have pursued my appeal and addressed these violations long ago. Instead, the Department's decisions and delays have directly enabled ongoing parental alienation and irreparable harm to my family.

Now, even when I attempt to secure the FOAA response that should reveal the justification for this unprecedented shutdown—something that affects not just my family, but every family in Maine placed in the same position—I am once again stonewalled. This is part of a clear pattern: even the Board of Licensing granted all five licensees extensions well beyond the statutory period, and I have been denied basic answers as to why.

The evidence is plain in this very email chain: while I remain civil, respectful, transparent, and persistent, the Department's responses have been evasive, obstructive, and in bad faith. The pattern speaks for itself.

Accordingly, I respectfully request your direct intervention to ensure **FOAA No. 1400** is fulfilled without further delay or deflection. Maine residents are legally entitled to these records. I am entitled to them. And my children's right to their father has already been gravely harmed by this Department's actions.

Please also understand that I am escalating this matter, as I already have, and I will continue to escalate it to every available avenue until I get the answer I am legally entitled to—and that every Maine family deserves. This includes raising this very issue and email in public comment at OPEGA's hearing next month.

Sincerely,
Ryan Michaels

Subject: FOAA #1400 – Request for Direct Answer

Dear Ms. Enis,

I note your response directing me to the FOAA coordinator. While I understand the technical distinction, it does not change the fact that your office administers Administrative Appeals. It is difficult to accept that the Appeals Unit could not provide something as basic as the directive or record that authorized suspending an entire appeal process regarding alleged child abuse — a decision that denied parents due process and the ability to advocate for their children's safety.

For reference, I have already included **Brenda Kielty** as well as the two DHS officials she herself contacted to participate, as required by law. Their involvement has also gone unanswered, and I will attach that request again here for clarity.

Whether or not you choose to do what is right by providing this very reasonable information — which I have now requested more times than should ever have been necessary — does not change the fact that the truth is already plain. It is clear as day that the Department has not been acting in good faith, but has instead engaged in **stonewalling, manipulation, coercion, and obstruction**, just to name a few.

Therefore, I once more restate my request, on the record:

Please provide the records or directives explaining why Administrative Appeals were placed on hold.

This is the subject of FOAA #1400. Transparency, accountability, and the protection of children demand a direct answer.

Thank you,
Ryan Michaels

Subject: Confirmation of Continuance & Renewed Request for FOAA Response

Dear Ms. Enis, Ms. Devine, and all copied,

I appreciate the confirmation that my continuance will be scheduled for a date **after October 20, 2025**. That addresses the immediate scheduling concern I raised and ensures I will have access to the Board of Licensing responses in advance of the hearing.

At the same time, I must put on the record that the **substantive concerns raised in my prior emails continue to be disregarded, deferred, or left unanswered**. Today alone, I received multiple replies from both Ms. Enis and DHHS Administrative Hearings — showing that when the Department chooses, it can respond promptly and in succession. Yet in all of these replies, the central context of my communications has not been addressed.

Accordingly, I now restate the singular question that has been at the heart of my FOAA Request No. 1400:

Please provide the written records, communications, or directives that explain why Administrative Appeals were placed on hold.

This is not a question to be overlooked. It should never have required a FOAA request in the first place, and the absence of an answer has already caused direct and irreparable harm to me, my family, and likely many other families. I respectfully request that this information be provided by **October 8, 2025** so that I may review it in advance of the rescheduled hearing.

Lastly, to clarify the point raised about the attachment labeled "Witness List": that file was simply a PDF printout of this same email chain for reference — not a separate list of names.

Thank you,
Ryan Michaels

Subject: Acknowledgment of Continuance and Formal Objection to Department Delays

Dear Ms. Enis, Ms. Devine, and all copied,

I acknowledge receipt of the Department's recent responses and confirm that I accept the continuance that has been granted, and I have received the subpoena forms. I will proceed in good faith to prepare for the rescheduled hearing.

That said, I put on the record my formal objection to the fact that I must rely on a continuance in the first place. All five licensees in my Board of Licensing matters were granted extensions until October 20, 2025—well beyond the initial 30-day period—and that extension has forced this delay. This occurs against a documented history of delayed and obstructive responses by the Department in this matter.

Specifically:

- My FOIA request (FOIA No. 1400), submitted August 1, 2025, was not a generic request for records. Its very purpose was to ask for proof and reasoning behind the Department's decision to place Administrative Appeals on hold. That unilateral action directly, negatively, and irreparably damaged me and my family, and very likely many other families as well. It should never have required a FOIA request to obtain this basic explanation. As shown in this attached correspondence, I even asked about it directly in this very email chain, yet was met with the same evasion, obstruction, and stonewalling that has become a pattern. The Department's failure to honor its four-week production estimate, despite Ombudsman intervention, compounds this harm.
- I previously raised concerns here about the Department prioritizing MaineCare over Administrative Appeals and effectively shutting down appeals without informing parents or the public. That decision robbed me of the opportunity to address these issues months ago, long before today's continuance was necessary.
- I have been quoted extreme FOIA fees on other requests (estimates in the tens of thousands of dollars), which further functions to price me out of access to public records.

For clarity and the avoidance of further prejudice, please confirm in writing the new hearing date and that it will be scheduled after October 20, 2025 so that the Board of Licensing responses may be included in my preparation. Please provide that written confirmation by close of business October 1, 2025.

I want the record to show that, if it had been possible, I would have represented myself and had this appeal heard many months ago. The delays, failures to communicate, and obstruction I have documented here are the reasons I have not been able to do so.

Thank you,
Ryan Michaels

Subject: FW: Witness list

Good morning,

I noticed that the Department of Administrative Hearings was not included in this email chain so I am forwarding this to the general mailbox as appropriate.

The subject of the email indicated "witness list". There was no witness list attached.

In respect to your request:

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

The Department is amenable to a continuance. The Department is not amenable to the record remaining open so that responses into evidence is submitted as there would be no opportunity to cross pertaining to

the information submitted after the hearing.

Thank you,

Deanna Enis, LSW

Subject: Subpoena Request Forms & Concern Regarding Licensing Complaint Extensions

Hello,

As you know, I previously requested a continuance because I was provided a large volume of paperwork only days before the last scheduled hearing. While I have not yet had the chance to fully review all of that material, I intend to move forward and will be prepared for the upcoming hearing next month, doing my best as I have throughout this process.

That said, I must raise a new concern for the record. I currently have five active complaints before the Board of Licensing against the very OCFS officials directly involved in my case:

- **2025-SOC-20907 — Christina L. Codere**
- **2025-SOC-20908 — Amy Lyn Cilley**
- **2025-SOC-20909 — Bobbi Lynn Johnson**
- **2025-SOC-20910 — Chelcie D. Stewart**
- **2025-SOC-20911 — Stephanie Ann Gaddar**

As shown in the attached email chain (Exhibit A), I was informed that each of these licensees has been granted an extension until **October 20, 2025** to file their responses. This conveniently falls *after* my Administrative Appeal hearing date, effectively preventing me from reviewing or using those responses in preparing my case.

Further, as also reflected in Exhibit A, I immediately followed up with the Board to request copies of the extension requests and clarity about the process. To date, I have been ignored. This silence disadvantages me further, reinforcing the pattern of stonewalling I have faced across multiple agencies. While I remain hopeful for fairness, history shows that stonewalling is alive and well—and again, it materially prejudices my ability to prepare.

In light of this, I respectfully request one of two remedies:

1. That the hearing be continued until after October 20th, so I may include those responses in my preparation; **or**,
2. At minimum, that the record remain open so I may submit the responses into evidence immediately upon receiving them.

Separately, as the hearing date approaches, I also request that you send me, via email, the paperwork required to request subpoenas. I would like to begin submitting subpoena requests promptly to ensure the necessary witnesses are called.

Thank you for your attention to this matter,
Ryan Michaels

Request for Continuance of Hearing Scheduled for July 1 2025.

I am writing to respectfully request a continuance of the hearing currently scheduled for tomorrow, 7/1/25. Yesterday, I received a substantial packet of information in the mail related to this case. Given the volume of material—hundreds of pages provided over the past few weeks, culminating in this most recent delivery—I do not have sufficient time to thoroughly review and prepare before the hearing.

As a one hundred percent disabled veteran representing myself without legal counsel, I face additional challenges that require adequate time to read, process, and respond appropriately to these documents. Proceeding without the opportunity to review this information would severely hinder my ability to participate fully and meaningfully in my own case.

Therefore, I respectfully request that the court grant a continuance to allow me the necessary time to review the materials and prepare. I believe this would ensure a fair and just proceeding.

Thank you for your understanding and consideration.

Respectfully,

Ryan Michaels

On Wed, Jun 25, 2025, 11:14 Ryan michaels <rtgmich@gmail.com> wrote:

Ms. Enis,

I understand your desire to avoid back-and-forth communication, but I must respectfully point out that **this delay is not just about scheduling a hearing — it is about the year-long denial of due process** that has caused **irreparable harm** to me and my children.

I have been waiting for **over a year** for this appeal. That's a year I cannot get back — a year during which I was denied the opportunity to defend myself in a timely manner, advocate for my children, and protect us from ongoing harm. **Had my appeal been scheduled when it should have been**, I may have been able to prevent or reduce some of the abuse and trauma that both I and my boys are still enduring today.

The hearing date in April is not the issue — the **administrative hold** that delayed my appeal without notice or explanation is.

I have asked **reasonable, specific questions** multiple times:

- When was the decision made to place OCFS investigative appeals on hold?
- Why were MaineCare appeals prioritized?
- Why were parents — the directly impacted parties — not informed?
- What policy, memo, or directive authorized this?

If the goal truly is to avoid back-and-forth, then the solution is simple: **answer the questions**. Instead, what I've received is deflection — not just today, but for months. This ongoing silence only reinforces the lack of transparency that got us here in the first place.

I am not requesting a continuance. I intend to proceed with the July 1 hearing, but I will also ensure that this failure of due process is entered into the record. I will not allow my rights or my children's suffering to be swept under the rug for the sake of procedural convenience.

Respectfully,

Ryan Michaels

Good morning,

Although I do not want to get into back and forth communication, I would like to point out that the scheduling letter was sent out in April and you have had since then to prepare for the July 1st hearing.

If you do not feel you had adequate time to prepare and would like to request a continuance so that you can prepare, the Department would not be opposed to a continuance. If you would like a continuance, please put the request in writing (email would do) and submit it to the hearings office and myself.

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for your response.

To clarify, this information is **highly pertinent** to the hearing on July 1st and to my ability to participate in it effectively. The administrative hold on all OCFS investigative appeals — which I inquired about in April but never received a response to — **delayed the scheduling of my appeal by several critical months**.

That delay:

- **Impeded my ability to timely present evidence and prepare witnesses**
- **Delayed access to case records necessary for defending myself and my children**
- **Prevented me from engaging with the hearing process at a stage where early intervention may have made a difference for my family**
- **Obstructed my ability to advocate for my children's best interests**, particularly in light of unresolved legal and protective matters

This is not an abstract administrative complaint — it's a question of **due process**, **fair notice**, and **transparency**. As a directly affected party, I had a right to be informed of the delay, its rationale, and its projected timeline — but I was kept in the dark. That silence amplified trauma and uncertainty, which still affect this upcoming hearing.

Whether or not the hearing officer chooses to formally incorporate this matter into the record, I would appreciate your office providing a **good-faith response** to my original, reasonable questions — especially now that you've confirmed receipt.

Thank you again for your time and continued attention.

Respectfully,
Ryan Michaels

Ms. Enis and Administrative Hearings Office,

First, I want to sincerely thank you both for your prompt and consistent responses today. I truly appreciate the professionalism and timeliness with which you've handled my recent inquiries.

That said, now that I know my emails are being received and seen, I must revisit a critical issue that remains unanswered — despite multiple formal requests sent in April.

As documented in our prior email chain (April 8–15, 2025), I respectfully asked several vital questions regarding the administrative hold placed on all OCFS investigative appeals that took place last year — specifically:

1. **When was the decision made to place OCFS investigative appeals on hold?**
2. **What was the official rationale for prioritizing MaineCare appeals over OCFS appeals?**
3. **Why were directly affected parties — especially parents — not notified of this decision?**
4. **Is there any official policy memo or documentation that explains this administrative action?**

To date, these reasonable questions have gone unanswered. This lack of transparency has directly harmed my ability to advocate for my children and prepare an informed defense — delaying justice and obstructing due process.

I am respectfully but urgently requesting a full written response to these questions. These appeals concern far more than procedural logistics — they affect the safety, dignity, and future of real families like mine.

Thank you again for your attention today, and I look forward to your reply.

Respectfully,
Ryan Michaels

We do need time to prepare the subpoena and get it mailed to you, and then you will need to serve the individual who the subpoena is for. If your hearing date is less than 10 days away there may not be enough time to allow all of that. I can not say if it would automatically be rejected, as that is not my decision. If you can get the form back to me quickly, I can get it to the Chief Hearing Officer and see if we can get it turned around quickly for you.

On the bottom of the format says that I have to do this ten days in advance of the hearing date. Does this mean it will be rejected if I put it in?
